CRI EXTENSION – FMS NOTIFICATION JAN 2018

Dear Citrus Producers

We would kindly like to remind all producers who have registered citrus orchards for export to the European Union under FMS Options A or B that this week (8 – 12 Jan 2018) will be the deadline for initiation of fruit infestation monitoring in citrus that will be harvested at the end of March, 12 weeks from now, or earlier. However, please note that PhytClean will not be able to accept this information before 15 Jan 2018.

For further details, refer to Cutting Edge 241.

Regards

CRI Extension

CRI VOORLIGTING – FMS KENNISGEWING JAN 2018

Beste Sitrusprodusent

Ons wil graag hierdie herinnering uitstuur aan alle sitrusprodusente wat boorde geregistreer het vir uitvoer na die Europese Unie deur Opsies A of B. Hierdie week (8 – 12 Jan 2018) is die sperdatum vir die begin van monitering van besmette vrugte in sitrus wat einde Maart, 12 weke van nou af, of vroeër geoes word. Neem egter kennis dat hierdie inligting nie voor 15 Januarie 2018 deur PhytClean aanvaar kan word nie.

Vir verdere inligting, verwys na Snykant 241.

Groete

CRI Voorligting
